

Barber's
CHAIR
Men's Grooming Collection

 **TAKARA BELMONT**

Discover the passion for craftsmanship and tireless pursuit of the Real Thing
that has inspired a devoted following around the world

since 1921

Timelessness never loses its lustre.

Barber's
CHAIR
Men's Grooming Collection

 **TAKARA BELMONT**

Beloved around the world, generation after generation

Like a fine work of art or piece of music,
Takara Belmont has created a masterpiece to stand the test of time—our Model No. 225 Barber's Chair.

First introduced in 1961, its now iconic silhouette graces grooming salons worldwide.

The timeless design, inspired by classic barber's chairs of yesteryear,
has spawned countless imitators, yet today this beloved chair still sets the industry standard.

And with the resurgence of men's grooming salons in Europe,
America and even across Asia in recent years,
the 225's services are now in greater demand than ever before.

The unstinting dedication to craftsmanship behind “Made in Japan”

“Always put yourself in the customer’s shoes.”

That’s been the basis of everything we do since 1921,
when our company was founded. Putting this principle into practice is the work of
expert craftsmen whose skills have been honed over our company’s long history.
Takara Belmont’s “Made in Japan” label represents a promise of unrivalled quality and
individualised service that only products made in accordance
with the strictest industrial standards can offer.
That’s a promise we’ll never break—that’s Takara Quality.

The one and only Real Thing.

In 1961, the very first Model No. 225 Barber's Chair rolled out of our factory and into the history books.

In recent years, the 225's iconic status has only grown, becoming a permanent fixture of grooming salons around the world.

A heel rest is added to our line-up of features, so your taller customers will have plenty of room to stretch their legs.

That's what we mean by preserving tradition through evolution.

Standard features

- Chair base selectable from Classic E and Slim-R (prices may vary)
- 360° (lockable) rotation
- Reclining backrest
- Spring-loaded seat cushion
- Height-adjustable and removable headrest (8 settings)
- Upholstered padded armrests
- Integrated gown rail
- Integrated hook
- Belmont-branded footrest with stopper
- Heat-pressed seat and backrest upholstery

Customisable options

- Heel rest
- Manicure bowl and ring
- Integrated ashtray in arm end
- Stitched (instead of heat-pressed) seat and backrest upholstery

Nostalgic elegance that does justice to a great name.

Small details can make a big difference.

Set against the 225's classic frame, carefully considered upholstery accents like contrast-coloured piping around the edges and diamond-pattern stitching on the seat lend a touch of extra class reminiscent of the interior of a great luxury car marque. A new icon of the Model No. 225 is born.

Our Elite Black and Elite White models even feature matching-coloured side frames, goosenecks, base plate and pump cover.

Electric Collection

The history of the electric barber's chair truly begins with Takara Belmont.

To enhance customer comfort and salon work efficiency, Takara Belmont introduced the world's first electric barber's chair in 1962.

While all of our barber's chairs symbolise our commitment to both quality and technology, we are especially proud of our Electric Collection. These highly versatile chairs offer an unrivalled level of service and functionality.

Ensuring a smoother, more comfortable experience for both you and your customers.

Our Electric Collection combines first-class comfort for your customer with superb operability to let your professional talents shine. Only an electric barber's chair offers the long-stroke, low initial height that enables you to work more smoothly and efficiently while keeping your customer comfortable throughout.

Easy-to-use control panel

Automatically adjust height, backrest and leg rest at the press of a button.

Note: Picture shows service outlet with Japanese specs.

Preset positions

Allows you to pre-programme one-touch multiple seat positions for shampooing, shaving and other services.

Auto return switch

Returns chair to original position at a single press of a button.

Manual switch

Allows you to individually adjust chair height, backrest and leg rest to suit each customer.

Our three core principles

Safety and stability

Our chair base is designed with stability in mind, so you can offer shaving or facial treatments without worrying about shaking. For added safety and peace of mind it is also equipped with an anti-pinch mechanism.

Customer comfort

Every model is ergonomically designed for ultimate comfort. Comfortable seat cushions, high-quality leather and soft gathers ensure total relaxation.

Work efficiency

Every model includes details designed to increase your work efficiency, from a shallower backrest to a stage-less height-adjustable headrest, integrated cape holder, integrated holder for hand dryer, and service outlet.

Foot switch

Allows height and lock/unlock rotation to be adjusted for smoother hands-free operation.

360° (lockable) rotation

Allows for free rotation so the chair will never get in your way.

Backrest/leg rest (independently adjusted)

Facilitates a wider range of services and enhances workability.

Lift-up height-adjustable headrest (stage-less settings)

90° rotatable headrest maintains natural position

Usual position

With 90° rotation

Removable footrest

Detaches easily to provide foot care service and easy access for disabled or elderly customers.

Heater

Keeps customer's legs comfortable and warm.

Note: Not available with some models or specs

Maxim

Ultimate luxury right down to the very smallest detail

Note: The dimensions show the chair with the footrest.

Electric chair base

Engineered to show our classic chair designs off to full advantage, our electric chair base is compatible with almost all models, meaning you can add electric comfort to your favourite chair and choose the colour that is right for you. One-touch operation lets you raise and lower the chair smoothly without repeatedly having to pump your foot, and the low initial height and long-stroke improves chair access for the elderly or disabled while making it easier to work on customers of any size. All this adds up to significantly improved comfort and workability for you and your customer.

Note: Not available with Dainty (Model No. 405)

Classic Majolica Cabinet

This handsome cabinet with recessed panel doors and an oak grain finish blends easily with a wide variety of interiors depending on your choice of chair. Beside a classic men's chair it lends an air of stateliness to any grooming salon, while in a light and airy space it looks best paired with a natural-coloured chair.

(Classic Majolica Cabinet) W1800xD331xH920mm

EX-SB 2W
(Majolica Porto basin)

EA-SB P2
(Faucet fittings)

Classic Mirror

Paired with our Classic Majolica Cabinet, this mirror, featuring a beveled frame made from natural wood, lends a sense of harmony to any classic interior.

NT-MIR-1 W800xD331xH1000mm

Majolica Porto

The thick, soft gel cushion firmly supports the customer's neck, allowing it to rest almost completely horizontally and evenly distributing the weight placed on it.

The cushion is fixed securely to the basin, preventing it from sliding around during treatments, so you can focus on your work. Compared to previous models, the depth and length of the basin have been increased to give you plenty of room to work even with longer hair.

EX-SB 2W / EA-SB P(S)2*
Double tap with fittings and thermostatic control
Basin colour: White (W) W640xD535xH265mm
